Dear Resident:

The City of Walled Lake Planning Commission has been studying the use of docks on Walled Lake over the past several months. They have looked at a number of issues regarding docks including but not limited to types of docks permitted, different uses (seasonal, temporary stays, single family, etc.), location of docks, average shoreline lot frontage length, and enforcement issues.

In addition, they have held multiple public hearings to collect important public concerns to incorporate and generate the City of Walled Lake Dock Ordinance.

Please see the enclosed dock ordinance which will be effective April 1st through October 31st of every year. Residents will be required to register their watercraft with the City.

Please take the time to review the ordinance on line or at City Hall, as great efforts were put forth from the residents and City to construct this instrument.

Please forward your questions or concerns to the City Enforcement Department 248-624-4847.

Thank you!

Pride in our past — Faith in our future
